ABOUT ME

Third-year undergraduate studying Information Technology and Management at the University of Moratuwa, passionate about software development and building reliable web applications. Hands-on experience developing full-stack projects using React, Next.js, Java Spring Boot, and modern PHP (MVC). Seeking a Software Engineering Internship where I can apply my problem-solving skills, learn from senior engineers, and contribute to real-world software products.

EDUCATION

University of Moratuwa (UOM) - Moratuwa, Sri Lanka **2024 - Present**
B.Sc. (Hons) in Information Technology & Management **(3rd Year | CGPA: 3.23 / 4.0)**

Open University of Sri Lanka (OUSL) - Nawala, Sri Lanka **2025 - Present**
Bachelor of Laws Honours Degree Programme (LL.B.)

St. Joseph's Vaz College - Wennappuwa, Sri Lanka **2009 - 2022**
G.C.E. Advanced Level (2 A's & 1 B) | G.C.E. Ordinary Level (8 A's & 1 B)

FEATURED PROJECTS

1. Super POS — Multi-Branch Enterprise Offline-First Retail System (Group Project) **2025 – 2026**

- Architected an offline-first transaction queue that allows branch cashiers to continue sales operations during network disruptions, buffering records securely in local storage.
- Implemented automated background synchronization with data conflict resolution algorithms and an interactive three-way reconciliation tool for transactional consistency.
- Engineered a real-time node fleet monitor for live multi-branch status tracking, instant broadcast alerts, and automated transaction audit report exports.
- **Technologies:** Next.js, React, TypeScript, NestJS, Node.js, PostgreSQL, Prisma ORM, Socket.io, IndexedDB, Tailwind CSS
- **Live Demo:** pos-system-pos-web-app.vercel.app | **GitHub:** github.com/Ryzera/Ryzera-POS

2. CareerFlow — Full-Stack ATS Resume Optimizer & AI Interview Platform (Individual Project) **2025 – 2026**

- Built an automated resume optimization platform that audits uploaded resumes against target job descriptions to compute match percentages and highlight missing skills.
- Developed an interactive mock interview simulator that generates structured technical questions based on candidate responses with automated feedback scoring.
- Constructed a decoupled microservice architecture with API rate limiting, containerized services, automated test suites, and continuous deployment workflows.
- **Technologies:** Java 21, Spring Boot 3, Python 3.12, FastAPI, Next.js 14, PostgreSQL, Docker Compose, Scikit-learn, JUnit 5
- **Live Demo:** careerflow-pink.vercel.app | **GitHub:** github.com/SithumManusha/careerflow

3. Ledgerly — Personal Finance & Shared Expense Platform (Individual Project) **2025 – 2026**

- Developed a personal finance tracking web application that monitors monthly expenditures, computes category budget health scores, and alerts users near budget thresholds.
- Created an interactive balance projection module that models custom monthly contribution scenarios to visualize long-term savings trajectories.
- Implemented multi-user group expense splitting across 4 distribution methods with automated monthly PDF financial statement downloads and comprehensive test coverage.
- **Technologies:** React, TypeScript, Node.js, Express, PostgreSQL, Drizzle ORM, Recharts, Vitest, Render
- **Live Demo:** ledgerly-nine-rust.vercel.app | **GitHub:** github.com/SithumManusha/Ledgerly

4. Pulse AI Blog Engine — AI Content Platform & MVC Architecture (Individual Project) **2025 – 2026**

- Engineered an AI-native content publishing platform featuring an integrated intelligent assistant for one-click executive summaries, article drafting, and automated taxonomy tagging.
- Integrated an in-browser audio narration player with variable speed controls to deliver accessibility-focused, hands-free article listening.
- Hardened application security using prepared database queries, session-based form protection, HTML sanitization against cross-site scripting, and automated code vulnerability scanning.
- **Technologies:** PHP 8, MySQL, SQLite (PDO), Google Gemini AI, Docker, GitHub Actions, CodeQL, Tailwind CSS, Web Speech API
- **Live Demo:** pulse-ai-blog-engine.onrender.com | **GitHub:** github.com/SithumManusha/pulse-ai-blog-engine

5. Automated Robotic Sorting System — Microcontroller Conveyor Platform (Group Project) **2024 – 2025**

- Constructed an automated conveyor sorting platform with an articulated 4-DOF robotic arm and sensory array to detect, categorize, and sort physical items into target collection bins.
- Programmed motor calibration and sensory feedback routines to achieve 98% placement precision across diverse tagged object categories.
- Synchronized mechanical arm pick-and-place actuation with continuous conveyor belt movement through hardware timing and integration testing.
- **Technologies:** Arduino Mega/Uno (C++), Stepper Motors (NEMA 17), Servo Motors, RFID, Sensors, Integration Testing
- **GitHub:** github.com/SithumManusha/robotic-sorting-system

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, TypeScript, PHP, C/C++, SQL
- **Front-end Development:** React, Next.js, TypeScript, Tailwind CSS, Recharts, IndexedDB
- **Back-end Development:** Spring Boot 3, FastAPI, Node.js, Express, NestJS, PHP (MVC), WebSockets (Socket.io), RESTful APIs
- **Databases & ORM:** PostgreSQL (Supabase), MySQL, SQLite, Spring Data JPA, Hibernate, Prisma ORM, Drizzle ORM, PDO
- **DevOps, Testing & Quality:** Docker, Docker Compose, Git, GitHub Actions (CI/CD), CodeQL, JUnit 5, Pytest, Vitest, Playwright, Postman

CORE COMPETENCIES & ARCHITECTURE

MVC & Microservices Architecture, RESTful API Design, Agile / Scrum, Object-Oriented Design (SOLID), Clean Code, Automated Testing, Offline-First Sync

CERTIFICATIONS

- AWS Cloud Practitioner Essentials – Amazon Web Services (AWS)
- Software Testing with Generative AI – Simplilearn
- Introduction to Artificial Intelligence – Simplilearn | Introduction to Cybersecurity – Cisco Networking Academy

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Member of the Organizing Committee, Official Career Fair conducted by University of Moratuwa (2026)
- Member of the Organizing Committee, Project "Rest with Hope" conducted by Leo Club, UoM (2025)
- Active Member – FIT Moments (Faculty Media Body) | Leo Club of UoM | Legal Youth Community Sri Lanka

LANGUAGES

- English: Professional Working Proficiency (Oral & Written) | Sinhala: Native Proficiency
